

## **NOMINATION AS COMMANDER A319/320**

### 1. COURSE OBJECTIVE

The objective of the Nomination as Commander Airbus 319/320 Course is to train applicants in:

- i. Normal operations operating as Commander,
- ii. Abnormal and emergency operations operating as Commander
- iii. And command and leadership,

To the proficiency and standards set forth by Croatia Airlines.

This course has been designed in accordance with the stipulations set forth in Aircrew Regulations

It contains all training elements for the upgrade of co-pilots with adequate experience on type to the position of Commander on the same aircraft type.

### 2. QUALIFICATION AND EXPERIENCE REQUIREMENTS

In order to be considered for admission, applicants must meet the following minimum requirements:

- Refer to OM-A Chapter 05.02. Qualification Requirements

When the need for new Commanders arises, the applications of all co-pilots who meet the above requirements shall be evaluated by the Chief Pilot.

### 3. TRAINING OVERVIEW

Training consists of four distinct modules:

MODULE 1 - GROUND TRAINING:

- a. Commander's Responsibilities
- b. c. Commander's Crew Resource Management (CRM)

MODULE 2 - SIMULATOR TRAINING:

- Simulator sessions to be carried out in accordance with Croatia Airlines' approved TRTO – A-320 Integrated type rating course, to include normal and abnormal/emergency procedures training and Line Oriented Flying Training (LOFT)

MODULE 3 - OPERATOR'S PROFICIENCY CHECK operating as Commander;

MODULE 4 - LINE FLYING UNDER SUPERVISION:

- Route qualification training
- Aerodrome qualification training

The training ends with a line check which incorporates the route and aerodrome qualification competence check.
