

For safety reasons it is forbidden for you to carry any dangerous goods items, such as:

- Disabling devices, e.g. mace, pepper spray, etc.;
- Electro shock weapons (e.g. Tasers) containing explosives, compressed gases, lithium batteries, etc.;
- Most of security-type briefcase, cash boxes, cash bags, etc. incorporating lithium batteries and/or pyrotechnic material;
- Explosives, e.g. ammunition, fireworks, flares, etc.;
- Compressed gases (flammable, non-flammable and poisonous), e.g. butane, propane, camping gas, oxygen bottles, aqualung, etc.;
- Flammable liquids and solids, e.g. acetone, lighter fuel, paints, cleaning spirit, matches, etc.;
- Oxidizing materials and peroxides, e.g. bleaching agents;
- Poisonous (toxic) and infectious substances, e.g. arsenic, cyanide, insecticides, mercury, bacteria and virus cultures etc.;
- Radioactive materials;
- Corrosive materials, e.g. acids, alkalis, wet cell batteries, etc.;
- Other articles, such as magnetized materials, noxious, offensive or irritating materials.

*Note 1: **Electronic, simulated smoking materials** (cigarettes, pipes, cigars) are prohibited from use on board by passengers at all times.*

*Note 2: **Self-balancing devices** (e.g. hoverboard, mini-segway, solowheel, airwheel, balance wheel, etc.) with lithium batteries are **prohibited** on one's person, carry-on and checked baggage.*

Note 3: Due to fire hazard, large Portable Electronic Devices should be carried in the Carry-on Baggage only.

*Note 4: **Battery-powered lighters powered by a lithium ion or lithium metal battery** (e.g. laser plasma lighters, tesla coil lighters, lux lighters, arc lighters and double arc lighters) without a safety cap or means of protection against unintentional activation are forbidden.*

There are, however, certain exceptions for personal care, medical needs, sporting equipment, and items to support physically disabled passengers.

Dangerous Goods that may be carried under certain Conditions

Note: In accordance with security requirements, liquids are subject to even more restrictive quantity limitations when carried in passenger cabin. Please check hand baggage security rules.

Fire arms, replicas of weapons, daggers, (flick) knives and other offensive looking articles are also forbidden to be carried in the passenger cabin.

Dangerous Goods that may be carried under certain Conditions

Some baggage falling into the category of dangerous goods which may be carried under certain conditions. Please be aware that the limitations for liquids in cabin baggage also apply for the items mentioned below.

Alcoholic beverages:

When in retail packagings containing more than 24% but not more than 70% alcohol by volume, in receptacles not exceeding 5 L, with a total net quantity per person of 5 L.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Ammunition, securely packaged (e.g. customary trade packing):

Securely packed ammunition in Division 1.4S (UN 0012 or UN 0014 only), in quantities not exceeding 5 kg (11 lb) gross weight per person for that person's own use, excluding ammunition with explosive or incendiary projectiles. Allowances for more than one person must not be combined into one or more packages.

The approval of the carrier(s) is required:	Yes*
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines' representative. All required conditions and limitations set here must be met.

Avalanche rescue backpack:

One (1) per passenger, containing a cartridge of compress gas in Div. 2.2. May also be equipped with a pyrotechnic trigger mechanism containing no more than 200 mg net of Division 1.4S. The backpack must be packed in such a manner that it cannot be accidentally activated. The airbags within the backpacks must be fitted with pressure relief valves.

The approval of the carrier(s) is required:	Yes*
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Note: The gas cylinders shall only be accepted if integrated in the backpack. Spare cylinders or removed cylinders shall not be accepted.

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines' representative. All required conditions and limitations set here must be met.

Baggage with installed lithium batteries non-removable exceeding – 0.3 g lithium for lithium metal or 2.7 Wh for lithium ion batteries.

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Baggage with installed lithium batteries:

a) non-removable batteries. Batteries must contain no more than 0.3 g lithium for lithium metal or must not exceed 2.7 Wh for lithium ion batteries;

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

b) removable batteries. Batteries must be removed if baggage is to be checked in. Removed batteries must be carried in the cabin.

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	No

Camping stoves and fuel containers that have contained a flammable liquid fuel (*with empty fuel tank and/or fuel container*) are not allowed in passengers' baggage:

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Chemical Agent Monitoring Equipment (*when carried by staff members of the Organization for the Prohibition of Chemical Weapons on official travel*):

Instruments containing radioactive material not exceeding the activity limits specified in Table 10.3.C, i.e. chemical agent monitor (CAM) and/or rapid alarm and identification device monitor (RAID-M), securely packed and without lithium batteries, when carried by staff members of the Organization for the Prohibition of Chemical Weapons (OPCW) on official travel.

The approval of the carrier(s) is required:	Yes*
Permitted on one's person:	No

Permitted in or as carry-on (cabin) baggage: **Yes**

Permitted in or as checked baggage: **Yes**

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Dry Ice (Carbon dioxide, solid):

Dry Ice in quantities not exceeding 2.5 kg (5 lb) per passenger when used to pack perishables is permitted in checked or carry-on baggage provided the baggage (package) permits the release of carbon dioxide gas. Each item of checked baggage must be marked "dry ice" or "carbon dioxide, solid" and with the net weight of dry ice or an indication that there is 2.5 kg or less dry ice.

The approval of the carrier(s) is required: **Yes***

Permitted on one's person: **No**

Permitted in or as carry-on (cabin) baggage: **Yes**

Permitted in or as checked baggage: **Yes**

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Electronic cigarettes including e-cigars, e-pipes and other personal vaporizers containing batteries when carried by passengers for personal use must be in carry-on baggage only.

Electronic cigarettes including e-cigars and other personal vaporizers containing batteries are prohibited from use on board by passengers at all times.

Recharging of these devices and/or batteries on board the aircraft is not permitted and the passenger/crew member must take measures to prevent accidental activation. Spare batteries must be individually protected to prevent short circuits by placement in the original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch, and carried in carry-on baggage only.

In addition, lithium batteries are subject to the following conditions:

(a) each installed or spare battery must not exceed:

1. for lithium metal or lithium alloy batteries, a lithium content of not more than 2 g; or
2. for lithium ion batteries, a watt-hour rating of not more than 100 Wh.

(b) batteries and cells must be of a type that meets the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3.

The approval of the carrier(s) is required: **No**

Permitted on one's person: **Yes**

Permitted in or as carry-on (cabin) baggage: **Yes**

Permitted in or as checked baggage: **No**

Fuel cells contained in portable electronic devices

Fuel cell used to power portable electronic devices (e.g. cameras, cellular phones, laptop computers, and camcorders) and spare fuel cartridges, under following conditions:

- a) Fuel cells and fuel cell cartridges may only contain flammable liquids, corrosive substances, liquefied flammable gas, water-reactive substances or hydrogen in metal hydride;
- b) refueling of fuel cells on board an aircraft is not permitted except that the installation of a spare cartridge is allowed;
- c) the maximum quantity of fuel in any fuel cell or fuel cell cartridges must not exceed:
 - 1. for liquids, 200 mL;
 - 2. for solids, 200 g;
 - 3. for liquefied gases, 120 mL for non metallic fuel cell or fuel cell cartridges or 200 mL for metal fuel cell or fuel cell cartridges;
 - 4. for hydrogen in metal hydride the fuel cell cartridges must have a water capacity of 120 mL or less.
- d) each fuel cell and each fuel cell cartridges must confirm to IEC PAS 62282-6-1 Ed. 1, including Amendment 1, and must be marked with a manufacturer's certification that it conforms to the specifications. In addition, each fuel cell cartridges must be marked with the maximum quantity and type of fuel in the cartridge;
- e) no more than two spare fuel cell cartridges may be carried in checked baggage, carry-on baggage, or on the person;
- f) **fuel cells containing fuel are permitted in carry-on baggage only;**
- g) interaction between fuel cell and integrated batteries in a device must confirm IEC PAS 62282-6-1 Ed. 1, including Amendment 1. Fuel cells whose sole function is to charge a battery in the device are not permitted;
- h) fuel cells must be of a type that will not charge batteries when the portable electronic device is not in use and must be durably marked by the manufacturer : "APPROVED FOR CARRIAGE IN AIRCRAFT CABIN ONLY" to so indicated; and
- i) in addition to the languages which may be required by the State of Origin for the markings specified above. English should be used.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Da (if fuel cells contains fuel NO , see f))

Gas cartridges, small, non-flammable:

Gas cartridges, small, non-flammable for inflation purposes only containing carbon dioxide or other suitable gas in Division 2.2. Up to two (2) small cartridges fitted into a **self-inflating safety device** such as a life-jacket or vest. No more than one (1) device per passenger and up to two (2) spare small cartridges per person (up to 120mL water capacity or 60g), not more than four (4) cylinders up to 50 mL water capacity for other devices.

The approval of the carrier(s) is required:	Yes*
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Note: For carbon dioxide a gas cylinder with a water capacity of 50 mL is equivalent to a 28 g cartridge.

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Gas cylinders, non-flammable, non-toxic worn for the operation of mechanical limbs:

Also, spare cylinders of a similar size if required to ensure an adequate supply for the duration of the journey.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Hair curlers containing hydrocarbon gas:

Up to one (1) per passenger, provided that the safety cover is securely fitted over the heating element. These hair curlers must not be used on board the aircraft at any time. Gas refills for such curlers are not permitted in checked or carry-on baggage.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Heat producing articles:

Such as underwater torches (diving lamps) and soldering irons. Battery-powered equipment capable of generating extreme heat, which would cause a fire if activated. The heat producing component or the batteries are isolated from each other by the removal of the heat producing component, the battery or another component, e.g. fuse. Any battery that has been removed must be protected against short circuit (by placement in the original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separated plastic bag or protective pouch).

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Insulated packagings containing refrigerated liquid nitrogen (*dry shipper*):

Must be fully absorbed in a porous material containing only non-dangerous goods. Dry shipper must meet the requirements of Special provision A152.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Internal combustion or fuel cell engines must meet A70.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

Lithium batteries: Security-type equipment containing lithium batteries, such as attaché cases, cash boxes, cash bags, etc. incorporating dangerous goods as part of this equipment, for example lithium batteries or pyrotechnic material, only if the equipment complies with the following:

- (a) the equipment must be equipped with an effective means of preventing accidental activation;
- (b) if the equipment contains an explosive or pyrotechnic substance or an explosive article, this article or substance must be excluded from Class 1 by the appropriate national authority of the State of Manufacture in compliance with IATA DGR 3.1.7.1;
- (c) if the equipment contains lithium cells or batteries, these cells or batteries must comply with the following restrictions:
 1. for a lithium metal cell, the lithium content is not more than 1 g;
 2. for a lithium metal or lithium alloy battery, the aggregate lithium content is not more than 2 g;
 3. for lithium ion cells, the Watt-hour rating is not more than 20 Wh;
 4. for lithium ion batteries, the Watt-hour rating is not more than 100 Wh;
 5. each cell or battery is of the type proven to meet the requirements of each test in the UN Manual of Tests and Criteria, Part III, section 38.3;
- (d) if the equipment contains gases to expel dye or ink, only gas cartridges and receptacles, small, containing gas with a capacity not exceeding 50 mL, containing no constituents subject to IATA DGR other than a Division 2.2 gas, are allowed. The release of gas must not cause extreme annoyance or discomfort to crew members so as to prevent the correct performance of assigned duties. In case of accidental activation, all hazardous effects must be confined within the equipment and must not produce extreme noise.
- (e) security type equipment that is defective or that has been damaged is forbidden for transport.

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Lithium batteries: Portable electronic devices (PED) containing lithium metal or lithium ion cells or batteries, including medical devices:

Such as portable oxygen concentrators (POC) and consumer electronics such as cameras, mobile phones, lap-tops and tablets containing batteries when carried by passengers or crew for personal use, which should be carried in carry-on baggage. Devices in checked baggage must be completely switched off (not in sleep or hibernation mode) and must be to protect from damaged and unintentional activation.

Baggage equipped with a lithium battery, other than lithium button cells, the battery must be removable (see point (e)). If offered as check baggage the battery must be removed and carried in the cabin. Each person is limited to a max. of 15 PED.

In addition, for lithium batteries:

- (a) each installed must not exceed
 1. for lithium metal or lithium alloy batteries, a lithium content of not more than 2 g; or
 2. for lithium ion batteries, a watt-hour rating of not more than 100 Wh.
- (b) batteries must be of a type that meets the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3;
- (c) articles containing lithium metal or lithium ion cells or batteries, the primary purpose of which is to provide power to another device e.g. power banks, **are permitted in carry-on baggage only**. These articles must be individually protected to prevent short circuits by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch.
- (d) electronic cigarettes containing lithium batteries **are permitted in carry-on baggage** only (see Electronic cigarettes)
- (e) baggage equipped with a lithium battery, with a lithium metal content exceeding 0.3 g or a Watt-hour rating exceeding 2.7 Wh:
 1. if the baggage is to be checked in, the lithium battery must be removed from the baggage and the lithium battery must be carried in the cabin; or
 2. the baggage must be carried in the cabin.
 3. baggage where the lithium battery exceeds the limits in (e) and cannot be removed is forbidden for carriage.

The approval of the carrier(s) is required:	No *
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

**The operator may approve the carriage of more than 15 PED.*

Batteries, spare/loose, including lithium metal or lithium ion cells or batteries, for portable electronic devices must be carried in **carry-on baggage only**. Articles which have the primary purpose as a power source, e.g. power banks are considered as spare batteries. These batteries must be individually protected to prevent short circuits by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch. Each person is limited to a max. of 20 spare batteries.

In addition, for lithium batteries:

- (a) each spare battery must not exceed
 1. for lithium metal or lithium alloy batteries, a lithium content of not more than 2 g; or
 2. for lithium ion batteries, a watt-hour rating of not more than 100 Wh.
- (b) batteries and cells must be of a type that meets the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3.

The approval of the carrier(s) is required:	No*
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	No

**The operator may approve the carriage of more than 20 batteries.*

Lithium battery-powered electronic devices For the purpose of these Regulations, lithium battery powered electronic devices means the equipment or apparatus for which the lithium cells or batteries will

provide electrical power for its operations. These devices are permitted in checked and carry-on baggage with approval of the operator as follows;

- a) portable medical electronic devices (PMED), Automated External Defibrillators (AED), Portable Oxygen Concentrators (POC) and Continuous Positive Airway Pressure (CPAP), containing lithium metal or lithium ion cells or batteries may be carried by passengers for medical use as follows:
 - 1. or lithium metal or lithium alloy batteries, a lithium content exceeding 2 g but not exceeding 8 g; or
 - 2. for lithium ion batteries, a watt-hour rating exceeding 100 Wh, but not exceeding 160 Wh;
 - 3. batteries must be of a type that meet the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3.
- b) portable electronic devices such as power tools, video cameras, laptops containing lithium ion batteries as follows:
 - 1. lithium ion batteries with a watt-hour rating exceeding 100 Wh, but not exceeding 160 Wh;
 - 2. batteries must be of a type that meet the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3.

(c) if devices are carried in checked baggage:

- 1. measures must be taken to protect the device from damaged and to prevent unintentional activation;
- 2. the device must be completely switched off (not in sleep or hibernation mode).

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines' representative. All required conditions and limitations set here must be met.

Lithium batteries, spare/loose (including articles with the primary purpose of which is to provide power to another device, e.g. power banks) with a **Watt-hour rating exceeding 100 Wh but not exceeding 160 Wh** for consumer electronic devices and PMED or with a **lithium content exceeding 2 g but not exceeding 8 g** for PMED only are permitted in carry-on baggage as follows:

- a) for portable medical electronic devices (PMED), such as Automated External Defibrillators (AED), Portable Oxygen Concentrators (POC) and Continuous Positive Airway Pressure (CPAP):
 - 1. no more than two (2) lithium ion batteries with a watt-hour rating exceeding 100 Wh but not exceeding 160 Wh or lithium metal batteries, with a lithium content exceeding 2 g but not exceeding 8 g may be carried;
 - 2. spare batteries must be individually protected so as to prevent short circuits (by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch);
 - 3. batteries must be of a type that meet the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3. No more than two (2) individually protected spare batteries per person may be carried.
- b) for portable electronic devices such as power tools, video cameras and laptops:
 - 1. no more than two (2) lithium ion batteries exceeding a watt-hour rating of 100 Wh but not exceeding 160 Wh may be carried;
 - 2. spare batteries must be individually protected so as to prevent short circuits (by placement in original retail packaging or by otherwise insulating terminals, e.g. by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch);
 - 3. batteries must be of a type that meet the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3. No more than two (2) individually protected spare batteries per person may be carried.

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	No

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Matches, safety (one small packet) or a small cigarette lighter:

Provided that does not contain unabsorbed liquid fuel, other than liquefied gas, intended for use by an individual when carried on the person. Matches and lighters are not permitted in checked or carry-on baggage. Lighter fuel and lighter refills are not permitted on one's person or in checked or carry-on baggage.

Note: "Strike anywhere" matches are forbidden for air transport.

Note: "Blue flame" or "Cigar" lighters are no permitted on one's person, carry-on or checked baggage..

Note: "Cigarette lighters should have two independent actions by the user to activate ignition."

Note: "Cigarette lighters, powered by a lithium ion or lithium metal battery without a safety cap or means of protection against unintentional activation are not permitted on one`s person, catty-on or checked baggage."

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with non-spillable wet batteries or with batteries which comply with Special Provision A123 or A199 of IATA DGR:

Battery-powered wheelchairs or other similar mobility aids for use by passengers whose mobility is restricted by either a disability, their health or age, or a temporary mobility problem (e.g. broken leg), with non-spillable wet batteries or with batteries which comply with Special Provision A123 or A199 of IATA DGR, subject to the following conditions:

- a) non-spillable batteries must comply with Special Provision A67
- b) the operator must secure, by use of straps, tie-downs or other restraint devices, a battery powered mobility aid with installed batteries. The mobility aid, the batteries, electrical cabling and controls must be protected from damage including by the movement of baggage, mail or cargo;
- c) the operator must verify that:
 1. the passenger has confirmed that the battery is a non-spillable wet battery that complies with special provision A67, or nickel-metal hydride battery or dry battery;
 2. the battery terminals are protected from short circuits, e.g. by being enclosed within a battery container;
 3. the battery is either:
 - i. securely attached to the wheelchair or mobility aid and the electrical circuits are isolated following the manufacturer`s instructions; or
 - ii. removed by user, if the mobility aid is specifically designed to allow it to be, following the manufacturer`s instructions.
- d) a passenger my carry a maximum of one spare battery
- e) the operator must ensure that any battery(ies) removed from the wheelchair/mobility aid or spare batteries are carried in strong, rigid packagings which must be carried in the cargo compartment (see 9.3.14.5 and Figure 9.3. C)**
- f) It is recommended that passengers make advance arrangements with each operator.

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

**Removed and/or spare battery(ies) must be individually packed and carried in a protective container provided by the passenger.

Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with spillable batteries.

For use by passengers whose mobility is restricted by either a disability, their health or age, or a temporary mobility problem (e.g. broken leg), with spillable batteries:

- a) the operator must secure, by use of straps, tie-downs or other restraint devices, a battery powered mobility aid with installed batteries. The mobility aid, the batteries, electrical cabling and controls must be protected from damage including by the movement of baggage, mail or cargo;
- b) the operator must verify that:
 1. the battery terminals are protected from short circuits,e.g. by being enclosed within a battery container;
 2. the battery is fitted, where feasible, with spillresistant vent caps;
 3. the battery is either:
 - i. securely attached to the wheelchair or mobility aid and the electrical circuits are isolated following the manufacturer`s instructions; or
 - ii. removed from the mobility aid following the manufacturer`s instructions when the mobility aid cannot be maintained in an upright position, see (c);
- (c) if **the wheelchair or mobility aid cannot be loaded, stowed, secured and unloaded always in an upright position, the battery must be removed and shipped as cargo**. The wheelchair or mobility aid may then be carried as checked baggage without restriction.

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

Mobility Aids: Battery-powered wheelchairs or other similar mobility devices with Lithium Batteries

Lithium-ion battery powered wheelchairs or other similar mobility aids for use by passengers whose mobility is restricted by either a disability, their health or age, or a temporary mobility problem (e.g. broken leg), subject to the following conditions:

- a) the batteries must be of a type which meets the requirements of each test in the UN Manual of Tests and Criteria, Part III, subsection 38.3;

- b) the operator must secure, by use of straps, tie-downs or other restraint devices, a battery powered mobility aid with installed batteries. The mobility aid, the batteries, electrical cabling and controls must be protected from damage including by the movement of baggage, mail or cargo;
- c) the operator must verify that:
 - 1. the battery terminals are protected from short circuits, e.g. by being enclosed within a battery container;
 - 2. the battery is either:
 - i. securely attached to the wheelchair or mobility aid and the electrical circuits are isolated following the manufacturer`s instructions; or
 - ii. removed by user, if the mobility aid is specifically designed to allow it to be, following the manufacturer`s instructions. The battery removed from the mobility aid must not exceed 300 Wh, or for mobility aid fitted with two batteries, each battery must not exceed 160 Wh.
- d) a passenger may carry a maximum of one spare lithium ion battery not exceeding 300 Wh or two spare batteries each not exceeding 160 Wh;
- e) the operator must ensure that any battery removed from the mobility aid and spare batteries are carried in the passenger cabin. The removed or spare batteries must be protected from damage (e.g. by placing each battery in a protective pouch)**;
- f) it is recommended that passengers make advance arrangements with each operator;

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No (see also e); Yes
Permitted in or as checked baggage:	Yes (see also e); No

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines` representative. All required conditions and limitations set here must be met.

** Means of damage protection for removed and/or spare battery(ies) must be provided by the passenger.

Non-radioactive medicinal or toiletry articles:

(including aerosols) such as hair sprays, perfumes, colognes and medicines containing alcohol.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Non-flammable, non-toxic aerosols in Division 2.2, for sporting or home use:

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

The total net quantity of *Non-radioactive medicinal or toiletry articles and Non-flammable, non-toxic aerosols in Division 2.2* must not exceed 2 kg or 2 L, and the net quantity of each single article must not exceed 0.5 kg or 0.5 L. Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents.

Oxygen or air, gaseous, cylinders required for medical use:

Oxygen or air, gaseous, cylinders, required for medical use will only be accepted empty. Should a passenger require supplementary oxygen, this will be provided by carrier at a cost with prior arrangements.

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Note 1: Liquid oxygen systems are forbidden for transport.

Note 2: Should a passenger require supplementary oxygen, this will be provided by carrier at a cost with prior arrangements.

Note 3: Empty oxygen or air, gaseous, cylinders are not subject to restriction set here in.

Permeation Devices, for calibrating air quality monitoring equipment. These devices must comply with the requirements of A41.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

Portable electronic devices containing non-spillable batteries, batteries must meet A67 and must be 12 V or less and 100 Wh or less. The equipment must either be protected from inadvertent activation, or the battery must be disconnected and the battery terminals insulated. A maximum of 2 spares batteries may be carried. Each spare battery must be protected from short circuit by insulation of the battery terminals.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Radioisotopic cardiac pacemakers:

Or other devices, including those powered by lithium batteries, implanted into a person or fitted externally.

The approval of the carrier(s) is required:	No
Permitted on one's person:	Yes
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Self-balancing devices:

(e.g. hoverboard, mini-segway, solowheel, airwheel, balance wheel, etc.) with lithium batteries are **prohibited** on one's person, carry-on and checked baggage.

The approval of the carrier(s) is required:	Not applicable
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	No

Specimens, non-infectious (such as specimen of mammals, birds, amphibians, reptiles, fish, and insects) packed with small quantities of flammable liquid, must meet A180.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	Yes

Thermometer, medical or clinical, which contains mercury, one (1) per passenger for personal use, when in its protective case.

The approval of the carrier(s) is required:	No
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	No
Permitted in or as checked baggage:	Yes

Thermometer or barometer mercury filled:

When carried by a representative of a government weather bureau or similar official agency. The barometer or thermometer must be packed in a strong outer packaging, having a sealed inner liner or a bag of strong leak-proof and puncture-resistant material impervious to mercury, which will prevent the escape of mercury from the package irrespective of its position.

The approval of the carrier(s) is required:	Yes
Permitted on one's person:	No
Permitted in or as carry-on (cabin) baggage:	Yes
Permitted in or as checked baggage:	No

* This approval is not given in advance in writing. At the latest, it will be given and confirmed verbally when checking in at the airport by check-in staff or Croatia Airlines' representative. All required conditions and limitations set here must be met.
